Considering Contact Lenses?

DuPage Ophthalmology now offers contact lens fitting and exams! There are evening and weekend hours available. Whether you are new to contact lenses or an established wearer, we can take care of your contact lens needs. This includes:

- Soft or gas permeable contact lenses
- Toric contact lenses for astigmatism
- Colored contact lenses
- Multifocal/Bifocal contact lenses or Monovision fitting
- Specialty fittings for difficult corneal issues such as Keratoconus

There are many possibilities for vision correction with contact lenses. At DuPage Ophthalmology, Dr. Manastersky heads our Contact Lens Department. She is a graduate of the Illinois College of Optometry, and a member of the American Academy of Optometry and American Optometric Association's Cornea and Contact Lens Section. Dr. Manastersky fits contact lenses made by all major manufacturers as well as lenses from smaller custom labs. She keeps well informed of emerging technologies and will recommend the lenses that will work best for your eyes and your lifestyle.

All Contact Lens Evaluations include the following, as needed:

- Measurements to determine contact lens fit and prescription
- Necessary follow-up visits
- One pair of trial lenses (excluding rigid gas permeable lenses)
- Training on inserting and removing contact lenses
- Instruction of the proper care of contact lenses

***Contact lens evaluations typically range from \$50 to \$100.**

Vision insurance plans may cover some or all of the cost. Medical insurance plans do not cover the cost of contact lenses.

You also can order contact lenses to be shipped directly to your home at no extra charge. Simplify your life with convenient delivery.

* This does not include an eye health evaluation or the cost of contact lenses
